

Food Facilities Must Renew Their U.S. FDA Registrations By December 31, 2018

Your shipments to the United States may be refused entry if your food facility registration is not renewed prior to the deadline.

All registered facilities outside the United States must appoint a U.S. Agent for FDA communications. The U.S. Agent for FDA communications serves a different function than your importer, customs broker, commercial distributor, or trade association.

FDA sends communications to your designated U.S. Agent, including information regarding inspections, which often requires an immediate response.

Designate Registrar Corp as your U.S. Agent for FDA communications and receive:

- Registration Renewal: Mandatory Biennial FDA Food Facility Registration Renewal
- Certificate of Registration issued by Registrar Corp: Provides confirmation of your facility's registration to industry
- Registration Updates: Registrations must be updated within 60 days of a change in required information
- Prior Notice: Three free Prior Notice filings each year for your exports to the USA
- Detention Assistance: Communication with FDA on your behalf to seek the release of a detained shipment
- Mock FDA Inspection: Onsite expert assistance at a reduced rate
- DUNS Assistance: Obtain a DUNS number or update an existing DUNS record
- FDA Compliance Monitoring: A unique system that continuously monitors your company's FDA compliance status
